

[Health Insurance](#)

There are a variety of Health Insurance programs available. What an individual might qualify for is dependent on several factors including age, residency and/or income and assets. Options for Medicare beneficiary (those aged 65 and older or certain persons with disabilities include [Medicare Parts A, B and D](#) as well as [Medicaid](#), [Medicare Supplemental Insurance](#), [Medicare Advantage](#) plans and other [prescription assistance](#) programs. For more information on any of these programs you can contact **CHOICES** at **(800) 994-9422**. For those under 65 who are not Medicare eligible, you can shop online at Connecticut's marketplace, Access HealthCT for a qualified health plan and may be eligible for subsidies to help reduce the costs. Medicaid is also available for low income adults with incomes below 138% of the federal poverty level.
