

Effective immediately all providers that bill Skilled Services (S9123Z, S9124, T1004, 1247Z and Respite care) must bill these service(s) on a separate claim from Non-Skilled Services (1214Z, 1210Z, 1206Z, and PCA). The cost share invoicing requires that the skilled and non-skilled services be separated as part of the client contribution invoicing. Please call the finance department if you have any questions.
