Veterans Advocacy and Assistance

Suicide is the 10th leading cause of death in the United States. In 2014, the rate of suicide for adults over the age of 65 was 16.6 per 100,000. This rate increases to 19.3 in those 85 and above. That rate is especially significant for Veterans, as 65% of Veteran deaths by suicide were in those ages 50 or older.

The CHOICES Program staff and volunteers are in a unique position to encounter older Veterans who may be unlikely to seek help through traditional channels.

SWCAA has teamed up with the VA to prevent suicide in older adults by offering training for community professionals, CHOICES staff and volunteers.

The training is provided by VA Suicide Prevention Coordinator, Christina Allen, LCSW, and will include, warning signs and risk factors for suicide in older adults, and how to access VA services. For training dates & times, contact [Sharon Gesek](#). The [Veterans Crisis Line](#) connects Veterans in crisis and their families and friends with qualified, caring Department of Veterans Affairs responders.
