

COMMUNITY SUPPORTS TRANSPORTATION

Did you know that one-half of Americans 65 and older do not have access to public transportation? And that more than half of all non-drivers 65 and older stay at home daily because they don't have access to transportation. Those in rural communities are particularly affected because the transportation options are more limited.

If you or your loved one is no longer able to drive, there are transportation options to assist in providing rides to medical appointments, shopping, personal appointments and leisure outings through a variety of agencies.
