COMMUNITY OPTIONS  
PERSONAL CARE ASSISTANCE WAIVER

The Personal Care Assistance (PCA) Program is a Medicaid Waiver Program that enable individuals with disabilities live independently in the community as an alternative to living in an institution. A key program requirement is that the participant be able to hire, monitor and manage their PCA staff members.

**ELIGIBILITY**

The PCA Waiver Program is open to any Medicaid member (on Husky A, C, or D) that can self-direct staff and meets functional requirements established for the program. Eligible clients are between 18 – 64 years of age and meet institutional level of care.

This program has a waiting list. When a slot opens, the referral is submitted to the local Access Agency, where a Specialized Care Manager will make contact to conduct an initial assessment to determine level of need.
